Amphetamines, Inhalant & Cough Medicine Misuse Trending Upward Among Eighth Graders

Monitoring the Future is an annual drug use survey of eighth, tenth, and 12th grade students conducted by researchers at the University of Michigan, Ann Arbor, and funded by the National Institute on Drug Abuse.

More than 11,000 students from 122 schools across the United States participated in the 2020 survey.*

Past-Year Substance Misuse Among Eighth Graders

*Data collection stopped prematurely due to the COVID-19 pandemic. Completed surveys represent about 25% of the size of a typical year's data collection. However, results were gathered from a broad geographic range and were statistically weighted to be nationally representative.
