*****NEWS ADVISORY*****

National Institute on Drug Abuse to hold teleconference discussing key findings of 2017 Monitoring the Future Survey on teen drug use

The National Institute on Drug Abuse (NIDA) will hold a teleconference on Thursday, December 14, to discuss the results of the 2017 Monitoring the Future (MTF) survey. The survey, conducted by scientists at the University of Michigan, tracks annual drug use and attitudes among eighth, 10th, and 12th-grade students. NIDA is part of the National Institutes of Health, within the U.S. Department of Health and Human Services (HHS).

MTF – the only large-scale federal government teen health survey that releases findings the same year the data is collected – will include findings on attitudes about, and prevalence of, marijuana, opioids and other prescription medications, e-cigarettes, heroin, ecstasy, cocaine, synthetic cannabinoids (K2/Spice), alcohol, tobacco and other drugs.

MTF is one of three major survey instruments the HHS uses to monitor the nation's substance use patterns among teens. Information from these surveys helps to provide strategic planning for prevention, treatment, and recovery support services for youth.

WHAT: Teleconference to discuss the 2017 Monitoring the Future Survey results, which will be officially released at 12:01 a.m. EST on December 14.

WHEN: Thursday, December 14, 2017 from 11:00 a.m. – 12:00 p.m. EST

WHERE: To dial into the teleconference, call: 888-950-8043, Participant passcode: 6560874

Materials for the teleconference will be posted online December 14 at
www.drugabuse.gov/related-topics/trends-statistics/monitoring-future.

WHO: Featured Speakers

[Nora D. Volkow, M.D.](#)
Director, National Institute on Drug Abuse

[Richard A. Miech, Ph.D.](#), Principal Investigator, Monitoring the Future
Institute for Social Research, University of Michigan

[Lloyd D. Johnston, Ph.D.](#), Angus Campbell Collegiate Research Professor
Institute for Social Research, University of Michigan

Monitoring the Future is funded by grant #DA001411.

###

The National Institute on Drug Abuse (NIDA) is a component of the National Institutes of Health, U.S. Department of Health and Human Services. NIDA supports most of the world's research on the health aspects of drug abuse and addiction. The Institute carries out a large variety of programs to inform policy and improve practice. Fact sheets on the health effects of drugs of abuse and information on NIDA research and other activities can be found at <http://www.drugabuse.gov>, which is now compatible with your smartphone, iPad or tablet. To order publications in English or Spanish, call NIDA's DrugPubs research dissemination center at 1-877-NIDA-NIH or 240-645-0228 (TDD) or email requests to drugpubs@nida.nih.gov. Online ordering is available at <http://drugpubs.drugabuse.gov>. NIDA's media guide can be found at <http://drugabuse.gov/mediaguide/>, and its easy-to-read website can be found at <http://www.easyread.drugabuse.gov>.

About the National Institutes of Health (NIH): NIH, the nation's medical research agency, includes 27 Institutes and Centers and is a component of the U.S. Department of Health and Human Services. NIH is the primary federal agency conducting and supporting basic, clinical, and translational medical research, and is investigating the causes, treatments, and cures for both common and rare diseases. For more information about NIH and its programs, visit www.nih.gov.
