

Gene x Environment x Development Interactions (GEDI) NIDA Strategic Planning Workgroup

June 16, 2015

Workgroup Meeting 5 of 5

Co-Chairs:

Naimah Weinberg, M.D. (NIDA)

Jonathan Pollock, Ph.D. (NIDA)

GEDI Work Group Members

NAME	AFFILIATION
WORKGROUP CHAIRS	
Naimah Weinberg, MD	NIDA
Jonathan Pollock, PhD	NIDA
EXTRAMURAL WORKGROUP MEMBERS	
Danielle Dick, PhD	Virginia Commonwealth University
Margaret Daniele Fallin, PhD	Johns Hopkins Bloomberg School of Public Health
Hugh Garavan, PhD	The University of Vermont
John Rice, PhD	Washington University School of Medicine
E. Jane Costello, PhD	Duke University Center of Developmental Epidemiology
William G Iacono, PhD	University of Minnesota
Kenneth Kendler, MD	Virginia Commonwealth University
Eric Johnson, PhD	RTI International
Gustavo Turecki, MD, PhD	McGill University
NIDA STAFF	
Maureen Boyle, PhD	NIDA
Hal Gordon, PhD	NIDA
Raul Mandler, MD	NIDA
Michele Rankin, PhD	NIDA
Joni Rutter, PhD	NIDA
John Satterlee, PhD	NIDA

Agenda

- Introductions/Identification of participants
- June 9 meeting summary – will send when ready
- Action Items:
 - Discuss document comments/edits
 - Discuss ordering of Research Priorities
 - Discuss ordering of Approaches for each priority
 - Highlight actionable items that can be achieved in the next couple of years
 - Discuss proposal editing and due dates
- 5 Minute Public Comment Period
- Adjourn

Summary of Last Meeting

June 9, 2015

- This WebEx was devoted to discussing cross-cutting themes:
 - Data sharing, integration, and harmonization
 - Statistical methods
 - Training
 - Sex and gender issues
 - Leveraging existing technologies
 - Leveraging innovations from other fields
- Work group members decided upon the following schedule to complete proposal development:
 - Provide edits on entire Proposal by COB June 15, 2015
 - Conduct final WebEx on Tuesday June 16, 3-4 pm EDT
 - Perform final edits via email until June 23, 2015
 - Submit finalized proposal to NIDA on June 26, 2015

Reminder: Workgroup Charge

- Develop strategic priorities for increasing our understanding of gene x environment x development interactions in substance use research.
 - Identify measurable objectives for each priority
 - Specify benchmarks for gauging progress toward each objective
- Deliverable: 3-5 page summary of recommendations for NIDA on GEDI research for the next 5 years
- Completion date: by Friday June 26th
