NIDA-Inserm Postdoctoral Drug Abuse Research Fellowships

Binational Postdoctoral Research Training for U.S. and French Scientists

Applications May Be Submitted at Any Time
- 6- to 12-month awards, renewable once
- French scientists work with a NIDA grantee in the United States
- U.S. scientists work at an Inserm lab in France

All Applicants Must
- Hold an earned doctoral degree in medicine or biomedical sciences
- Identify an eligible researcher willing to serve as a fellowship mentor
- Notify NIDA and Inserm of your intention to apply
- Write a ≤ 3-page research plan for working with your mentor
- Have your mentor complete his or her section of the application

FRENCH APPLICANTS MUST
- Be a citizen or permanent French resident
- Be eligible for a J-1 visa to enter the United States
- Be proficient in written and spoken English
- Conduct research in any aspect of addiction science, with priority given to those investigating computational neuroscience, bioinformatics, statistics, genetics, or epigenetics

U.S. APPLICANTS MUST
- Be a citizen or permanent U.S. resident
- Live and work in the United States
- Be eligible for a French temporary work permit
- Conduct research in any aspect of addiction science

FRENCH MENTORS FOR U.S. APPLICANTS MUST
- Be a researcher working at an Inserm laboratory in France

U.S. MENTORS FOR FRENCH APPLICANTS MUST
- Be a current NIDA-funded U.S. researcher
- Work at an institution participating in the U.S. J-1 visa program
