*****NEWS ADVISORY*****

Mare Winningham and Patrick Kennedy join NIDA's Addiction Performance Project

Movie and television star Mare Winningham will lead an impressive cast in the [Addiction Performance Project](#), an innovative continuing medical education (CME) program for doctors and other health providers, on May 19 in San Francisco, Calif. The performance is a project of the National Institute on Drug Abuse (NIDA), part of the National Institutes of Health, and is designed to help doctors and other health professionals better identify and help drug-abusing patients in health care settings, and to break down the stigma associated with drug addiction. The performance takes place at the annual meeting of the American Psychiatric Association (APA).

Mare Winningham and Patrick J. Kennedy

The program will begin with a dramatic reading of Act III of Eugene O'Neill's *Long Day's Journey into Night*, with Mare Winningham reading the part of Mary Tyrone, the morphine addicted matriarch of a family devastated by addiction. Ms. Winningham joins other notable leading ladies, including Debra Winger, Blythe Danner, Dianne Wiest, and Kathryn Erbe, in reading this role as part of the Addiction Performance Project.

The reading will be followed by an expert panel reaction and facilitated audience discussion to explore the challenges for providers in working with addicted patients and the experience of these patients and their families. Former Congressman Patrick J. Kennedy will join NIDA Director Dr. Nora Volkow and expert APA members on the panel to discuss, from a patient and family member perspective, the devastating consequences of drug abuse and addiction.

WHAT: NIDA's Addiction Performance Project

WHEN: Sunday, May 19, 2013, 2 – 4 p.m.

WHERE: American Psychiatric Association (APA) 166th Annual Meeting
Moscone Convention Center, Room 130/131
North Building, Exhibit Level
747 Howard Street
San Francisco, Calif.

The performance is free, although registration for the APA meeting is required:
<https://www.xpressreg.net/register/apaa053/press/start.asp>.

WHO: **Actors (subject to change)**
Mare Winningham (Mary Tyrone)
Keith Burkland (James Tyrone)
Renzo Ampuero (Edmund Tyrone)
Cary Cronholm Rose (Cathleen)

Panel Members

Nora D. Volkow, M.D. (NIDA director)
Patrick J. Kennedy (former U.S. Congressman)
Roger D. Weiss, M.D. (Harvard Medical School and McLean Hospital)
Steven L. Batki, M.D. (University of California, San Francisco and San Francisco VA Medical Center)

The Addiction Performance Project is part of [NIDAMED](http://www.drugabuse.gov/nidamed), NIDA's outreach to practicing physicians, physicians in training, and other health professionals. For more information, visit: www.drugabuse.gov/nidamed/APP. ###

The National Institute on Drug Abuse is a component of the National Institutes of Health, U.S. Department of Health and Human Services. NIDA supports most of the world's research on the health aspects of drug abuse and addiction. The Institute carries out a large variety of programs to inform policy and improve practice. Fact sheets on the health effects of drugs of abuse and information on NIDA research and other activities can be found on the NIDA home page at www.drugabuse.gov, which is now compatible with your smartphone, iPad or tablet. To order publications in English or Spanish, call NIDA's DrugPubs research dissemination center at 1-877-NIDA-NIH or 240-645-0228 (TDD) or fax or email requests to 240-645-0227 or drugpubs@nida.nih.gov. Online ordering is available at <http://drugpubs.drugabuse.gov>. NIDA's media guide can be found at <http://drugabuse.gov/mediaguide/>, and its new easy-to-read website can be found at www.easyread.drugabuse.gov.

About the National Institutes of Health (NIH): NIH, the nation's medical research agency, includes 27 Institutes and Centers and is a component of the U.S. Department of Health and Human Services. NIH is the primary federal agency conducting and supporting basic, clinical, and translational medical research, and is investigating the causes, treatments, and cures for both common and rare diseases.
